

Sea Technology Index

Volume 30 (1989)

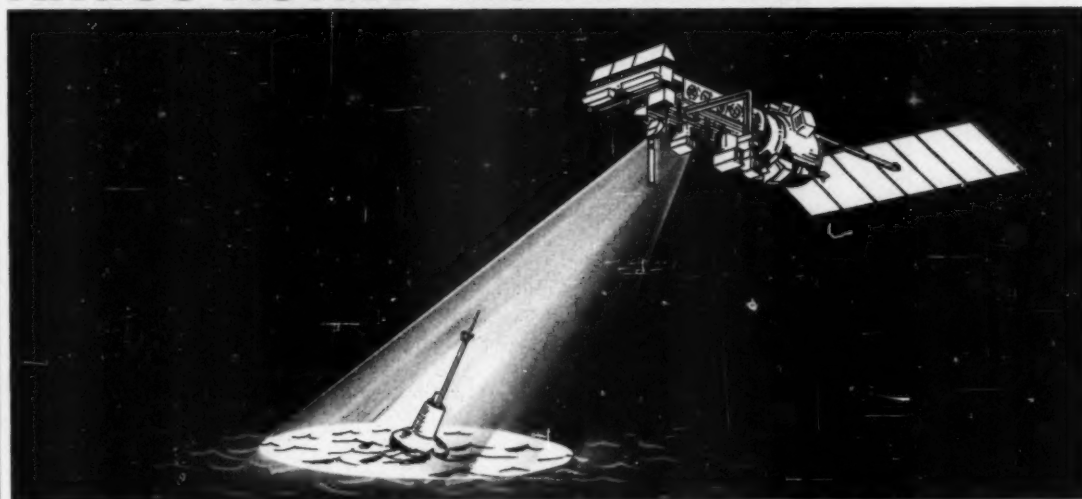

This instant reference index of technical subjects, news, and special features from Volume 30 of *Sea Technology* magazine provides information about article and news item subjects (part one) and authors of feature articles (part two). Numbers following entries indicate issue month and page number where material may be found.—*Editor*

Part One SUBJECT INDEX

A			
Acoustic positioning system (article)	3/25	budget negotiations	6/46
Acoustics		budgets history (table)	11/11
bathymetry support (article)	9/10	DARPA active	7/47
doppler current profiler hull-mount (article)	9/31	FY 90 budget request	3/23
EAVE III AUV systems upgrade (article)	6/31	GIS applications	11/51
moored acoustic vertical array (article)	5/25	Navy coordination office	2/99
Sea Beam system upgrade	6/10	Soviet threat (article)	11/10
underwater acoustic modeling (ASW) (article)	5/35	Soviet threat (R&F)	1/32
AGOR-23		underwater acoustic modeling (article)	5/35
multi-beam sonar selected	9/9	UUV missions (editorial)	11/7
ONR names Thomas G. Thompson	9/9	Aquaculture	
Akademik Mstislav Keldysh, Soviet research vessel visits U.S.	8/123	aid from interior/FWS	10/51
Antarctic Treaty, Colombia is 39th signatory	8/123	instrumentation survey (article)	2/53
Antifoulant, new cladding eliminates hull cleaning	8/90	oyster/shrimp culture in Hawaii	4/95
Antisubmarine warfare		Archaeology, marine, enhanced imaging instruments (article)	
Athena-class ships (article)	3/61		12/17
		Army Corps of Engineers, dredging innovations (article)	3/45
		Army Waterways Experiment Station (mini-profile)	3/60
		Atlantic Marine Center (NOAA) (mini-profile)	7/23
		Atlantic Oceanographic & Meteorological Lab (NOAA) (mini-profile)	4/62
		Australia, mine countermeasures strategies (article)	11/18
		Autonomous underwater vehicles	
		AUV industry status	1/37
		EAVE III systems upgrade (article)	6/31
		ocean resource use	8/14
		optical ranging systems (article)	5/31
		UUV power source survey (article)	10/25
		UUV proponents happy (editorial)	11/7
		B	
		Bathymetry	
		air-sea acoustic returns support (article)	9/10
		first high accuracy map published	12/44
		Sea Beam survey system (article)	6/10
		Beach restoration, new concrete reef tests	4/69
		Bernier	
		new Lamont-Doherty R/V	1/58
		new multi-beam sonar selected	9/58
		Bigelow, Dr. Henry B. (editorial)	1/7
		Biofouling solutions, marine (article)	6/17
		Blimps	
		air-sea flux experiments (article)	6/23
		airships for marine application (article)	5/33
		enjoying rebirth	11/16

(Continued on page 72)

ARGOS ACTIVE MONITORING

Automatic moored buoy monitoring by satellite:
Make sure it's on station.
And if the mooring fails — don't lose your buoy!

Argos provides a reliable and cost-effective turnkey system, which will monitor your moorings 24 hours a day, and automatically warn you in case of trouble.

For more information:

NHS-SYSTEM 3000

Navitronic Hydrographic Survey Systems makes it easier!

- Step 1 - Make a note of the type of positioning systems, gyro and other devices you are using
- Step 2 - Call NAVITRONIC
- Step 3 - Order a NHS-system 3000
- Step 4 - Give us the details from step 1
- Step 5 - You will get everything you need
 - from the transducer to the final chart
 - from full system responsibility to installation and training

NHS-systems
- a new way of doing things!

SURVIVABLE SOLUTIONS
For Your Underwater Cables

STOPPER GRIP® Termination
Fast, field-installable termination for stopping-off bare or jacketed cables

PMI Helical Armor Rods
Helical wrap-on design used to provide localized protection

EVERFLEX™ Bending Strain Relief
Slip-on protection to control bending radius for cables and hoses

DYNA-GRIP® Termination
Full-strength termination with proven performance against severe at-sea conditions

PMI Ball Joint Tow Point Adaptor
Extends the working life of your cable system, by providing articulation at the termination point

DAM/BLOK™ Underwater Electrical Splice Kit
Field installable electrical splice kit for full ocean depth use

SONATECH, INC.

WANTED

SENIOR MARKETING ENGINEERS

You can complement the perfect living environment with an exceptional opportunity for satisfying, professional growth at Sonatech, Santa Barbara.

Sonatech is a recognized leader in state-of-the-art sonar technology for military and commercial applications.

The company is currently undergoing a major expansion in all areas due to increased demand for our proprietary technology and products.

In addition to the various engineering skills required to meet the growing demands of our

customers, we also need Senior Marketing Engineers to interface with our Navy customers, analyze their requirements, configure systems to meet their needs, prepare proposals, make technical presentations, etc.

These positions are open to qualified degreed personnel with specific experience in the Washington/Navy environment as well as with Navy Labs and Prime Contractors.

For further information contact:
Sonatech, Inc., Personnel Dept., 879 Ward Dr.

Sidescan sonar for mine counter measures —The systems approach from Dowty

- High resolution dual frequency sonar
- Integrated tow-fish tracking and navigation processor
- Image enhanced colour video display with target marking
- Route survey, channel conditioning and mine identification
- Ideal for Craft of Opportunity (COOP)
